PROJECT DIVISION

We have built a formidable reputation in handling Projects and Heavy lift shipments to worldwide destinations. We have the expertise to offer our customers world class projects and heavy lift services. No matter where the destination is, our projects team will make sure that the cargo is delivered efficiently at minimum cost. We also have an enthusiastic and professional team to handle special over dimensional cargoes based on special containers or break bulk. Dedicated operations team are positioned to understand the needs for handling cargoes with ports, customs and transport agencies. Good rapport with liners and break bulk operators facilitates us to offer our customers and partners a competitive freight.

Freight Systems Provides Following Services:

⚙️ Heavy Lifts

A team of experienced professionals plan the complete Heavy Lift operations ensuring safe carriage over hydraulic axles, barges or vessels. All our heavy lift projects are well planned and engineered in detail, including a rigging study, to ensure efficiency and maximum safety throughout the lifting procedures.

Lifting accessories are frequently designed and constructed to meet the specific requirements of a particular lift, viz., generators, turbines, reactors, boilers, towers, castings, heaters, presses, locomotives, boats and military equipment. In the offshore industry, parts of oil rigs and accessories are also heavy lifted. We have the expertise and equipment to offer complete lifting solutions.

⚙️ Turnkey Projects

We offer complete Turnkey solutions to our customers which include everything you need from project planning to execution. We offer turnkey solutions right from dismantling a plant to effectively planning the most suitable shipping options. We work closely with our customers to understand critical information regarding their projects. Always dedicated project teams ensure the completion of a given project within the available time frame. Our team stays involved right from the planning stage till the final completion.

⚙️ ODC

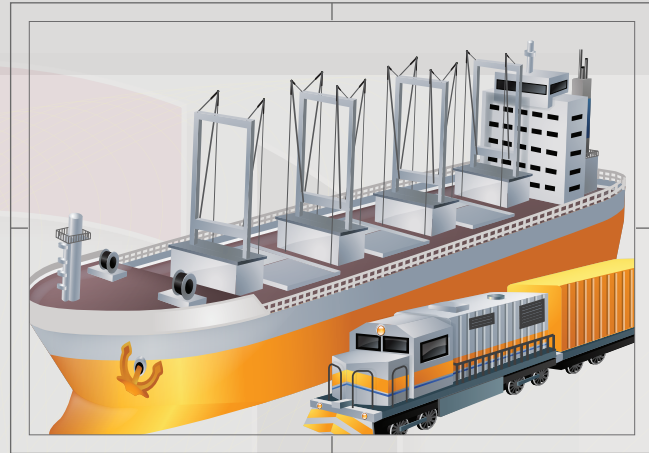

We take the hassle out of moving oversized, heavy or complex cargo to remote destinations within India or any overseas destination. Our team of dedicated project management professionals carries the assessment of your ODC cargo's transport requirements and delivers them in time within the budget. We have a worldwide network of associates, which consist of freight forwarders, vessel owners and transport equipment owners. We ensure a safe and timely delivery of consignments.

⚙️ RORO

We provide a comprehensive RO-RO transport solution, consisting of items such as tractors, buses, trucks and other oversized cargo loaded on special flatbed, MAFI or low body trailers.

⚙️ Road

We provide the right mechanical or hydraulic trailers for the right consignment thereby ensuring that your goods reach their destination quickly and without any extra charge.

⚙️ River

We provide an efficient & environmental friendly river transport mode which is often the most-cost effective substitute to carriage by road. Creeks - We have skilled teams who can navigate within creeks for barge transportation.

⚙️ Sea

We provide the most efficient ocean freight services.

⚙️ Rail

Depending on the destination, we arrange for cargo's to be delivered by rail to the final destinations.

⚙️ Project Customs Clearance

We are a licensed customs broker with a dedicated team of experts in customs documentation and customs clearance complying with all the local regulations. We provide all the services needed to facilitate the movement of your cargo from customs-point to customer's door. Our local knowledge allows us to handle the complete documentation & clearance.

Our wide ranging services incorporate preparation of all necessary declarations and reporting to authorities involving, electronic pre-filing, customs consultancy & documentation processing and project registrations. We use our network of branch and field offices to assume responsibility for your shipment throughout the entire transportation process, including delivery at the final point of destination.

⚙️ Ship Broking

We have an experienced and diligent team of brokers with worldwide network of ship owners, operators and shipbrokers. They know the most suitable positions for your cargo and ensure the speedy deployment of vessels. We cultivate close relationships with leading ship-owners, operators, traders and co-brokers throughout the world. We ensure our clients get the best possible fixtures. We deal in steel products, coal, iron ore, minerals, fertilizers and grain commodities.

⚙️ Coastal Movements

India has a number of major, minor and intermediate Ports with many new ports expected to come up along the 7500 km long Indian coast line. Transportation of cargo via sea is much cheaper and time saving as compared to rail and road.

We provide coastal cargo transportation services as below:

- ⚙️ Coastal Cargo Movement
- ⚙️ Coastal Vessels Availability
- ⚙️ Coastal Flat Top Barges & Tugs
- ⚙️ Handling Operations such as Lighterage, RO-RO operations etc.
