Our vision

Freight Systems will constantly exceed customer expectations by providing innovative logistic solutions.

PROVIDING TIMELY SOLUTIONS TO ALL YOUR LOGISTICS REQUIREMENTS

We are a global integrated logistics solutions provider with a comprehensive portfolio of services. Customers in more than 30 countries around the world rely on our decades of experience in planning and implementing integrated logistics solutions. Today, Freight Systems (FSL) plays a vital role in a highly competitive global economy where every business wants its products to reach the marketplace on time.

Our mission

Freight Systems, as a logistic solutions provider, is committed to:

- Delivering customized solutions
- Investing in technology and people
- Complying with applicable statutory and regulatory requirements
- Enhancing profitability
- Providing end-to-end supply chain services through an efficient global network

Every move a success

Thanks to the strategy of investing in technology that brings value to every process and offers clear benefits to customers, and of course, a well coordinated, highly motivated team whose common objective is to exceed customer expectations.

It gives us immense pride to announce that, in keeping with our corporate mission and vision, we have been awarded the ISO 9001: 2000 certification, for establishing, applying and adhering to a Quality Management System, in all aspects of our business. Our action plan is simple: identify customer needs, provide timely solutions, measure customer satisfaction and improve the speed at which services are brought to the customer's work place.

Sea-Air

Pre-defined transit time | Sea-air service schedule | Tracking service

Strategic hubs in the region enable Freight Systems to offer Sea-Air options from the Far East and the Indian subcontinent to Europe and North America and vice versa. Dedicated container freight stations at each hub expedite container handling for fast onward connections.

Projects & Heavy Lift Forwarding

Site inspection and project planning | Route surveys and selection of reliable carriers | Tracking and tracing with en route reporting | Customs clearance | Final stage delivery with closing report

Freight Systems has a dedicated project department which offers innovative ideas and technical engineering services right from initial guidance to total project management and heavy lift transportation. Worldwide partners and a professional project team are the key ingredients to the company's success as project and heavy lift forwarders.

Lubricants

Custom built lubricating oil tanker named FSL PRIDE | Lube oil supplies in bulk and packs to vessels off-shore

Freight Systems has always been proud of its association with Castrol Marine. Since November 1988, the company has been the sole stockists and distributors for Castrol's marine products in the UAE. As a stockist, FSL arranges to deliver the ordered lubricants to the nominated vessels in all UAE ports and also handles replenishment requirements to locations such as Bahrain, Kuwait, Muscat, Pakistan, India, Aden and CIS Countries.

ENSURING SMOOTH AND UNINTERRUPTED OPERATIONS

Oil & Gas Energy

Petroleum is vital to many industries, and is of importance to the maintenance of industrial civilization itself, and thus is a critical concern for many nations. Oil accounts for a large percentage of the world's energy consumption, ranging from a low of 32% for Europe and Asia, up to a high of 53% for the Middle East.

We at Freight Systems are strategically located worldwide to cater to the Oil and Gas sector with a team dedicated to serving the Oil and Gas industry providing innovative solutions tailored to the industry. Our teams work round the clock to ensure timely movement of shipments. We also have a project team which helps to cater to heavy, over dimensional cargo.

VALUE ADDED SERVICE AHEAD OF ITS TIME

Nautical
